

\$2 generic prescription coverage

MESSA ABC plans cover many generic drugs with a copayment of just \$2 once the plan deductible is met. That means members pay the full cost of the prescription until they satisfy their in-network deductible. This list is organized by medical condition and will change as brand names come off patent and new generic drugs become available. If you do not see your medication listed below or encounter issues filling your prescription at your pharmacy, please contact MESSA's Member Service Center at 800-336-0013.

This list is current as of **February 2024**.
