

OptumRx

It's easy to get started with home delivery prescriptions

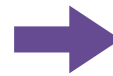

Step 1

Log in to your MyMESSA account and select Rx home delivery. Select the OptumRx option to access your OptumRx member portal.

Step 2

You may need to contact your provider or schedule an appointment to get a new prescription for a specific medication. To maximize your savings, ask your doctor to submit an e-prescription for a 90-day supply.

Step 3

You can manage prescriptions for your dependents from your OptumRx member portal. Adult dependents must create their own OptumRx accounts at optumrx.com and authorize you to view and order prescriptions for them.

Questions? We're here to help. Call MESSA's Member Service Center at 800-336-0013 or connect with us via live chat through your MyMESSA member portal or the MESSA app.
