Dear PPO Member:

Your PPO practitioner, facility or laboratory has completed this form because you are being referred for services to a non-PPO practitioner, facility, ancillary provider or laboratory.

Referrals outside the PPO network are required when covered services are medically necessary and not reasonably available within the TRUST network for PPO members. When these conditions are met, out-of-network cost sharing (deductibles and copays) are not applied. However, if your contract has in-network deductibles, coinsurance or copays, you will still be responsible for those.

Referrals are only valid up to 60 days after the date of the referral. The referral covers services that are performed within one year of the date of the referral. Retroactive referrals will not be approved without documentation in your medical record.

Benefits are not covered when members are referred to non-approved BCBSM facilities — for example, non-approved outpatient mental health.

If you are referred to a practitioner, facility, ancillary provider or laboratory that does not participate in any BCBSM Network (PPO, or Traditional), you may be responsible for paying the provider charges that exceed the BCBSM payment.
