

# List of drugs that may require prior authorization

## Prior Authorization

Your MESSA plan covers hundreds of different medications, including some that require prior authorization.

**Prior authorization:** To ensure compliance with FDA-approved safe prescribing guidelines, certain drugs require prior authorization before MESSA will cover them. For these drugs, your doctor must submit proper documentation supporting the need for the prescription, or else it will not be covered.

*This list is current as of Mar. 4, 2020, and is subject to change without prior notice. If you have any questions, please call MESSA Member Services at 800.336.0013. We'd be glad to help.*
